**Subject:** Aurora State Airport - Updated request for FAA review of draft chapter 3  
**Attachments:** Aurora State Airport - FAA Memo 4.28.22.pdf

Good morning Ben,

Please see the attached memo as a follow-up to our earlier request for FAA review of draft Chapter 3 - Aviation Activity Forecasts.

Thank you,

## Memo

---

**To:** Ben Mello, FAA SEA-ADO  
**From:** Century West Engineering  
**Date:** 4/28/2022  
**Project:** Aurora Airport Master Plan  
**Re:** Aurora State Airport – Updated request for FAA to hold on reviewing the Draft Aviation Activity Forecasts Chapter submitted on 4/13/2022

---

Century West Engineering, in coordination with the Oregon Department of Aviation, will be submitting an updated Draft Chapter 3 - Aviation Activity Forecasts for the Aurora State Airport Master Plan in the coming weeks for FAA review. This updated draft chapter will include revisions and responses to comments received from the Planning Advisory Committee following PAC meeting #1 (February 25, 2022), PAC Meeting #2 and Open House (March 1, 2022), and the PAC work session (April 5, 2022). PAC comment period for Draft Chapter 3 closed on April 12, 2022.

We will transmit a new formal review request along with the revised draft chapter in the coming weeks, and as such, request FAA refrain from reviewing the current Draft Chapter 3 submitted on April 13, 2022.

Please let us know if you have any questions or wish to discuss.

Thank you
