Hi Brandy,

Please see attached letter. Obviously, many at the airport are pretty concerned about the proposed solution. For my company, in particular, we are running 24/7/365 life-saving operations from our hangar. Our services are critical to the region. The proposal would cause significant disruption to us beyond the simple economics of the plan. Happy to discuss more at any point.

Hello PAC members,

Thank you for those of you who have submitted additional comments about the alternative presented during our last meeting. If you haven't sent a comment over, please do so before the end of the day Monday, December 23.

We have uploaded additional information on the drainfields, as discussed and requested during our last PAC meeting. If you are interested in reviewing this information, please download the files on the [project website](#) on the "Meetings" page under PAC Meeting #8.

Thanks,
