**Comments or questions?** There appears to be a security risk associated with the Aurora Airport. On multiple occasions VPDs, Vehicle, Pedestrian, Deviations have taken place. Unauthorized people have entered the airport, entered hangars, driven on the runway, walked their dog within restricted areas..... There is no standard security system or set of regulations that cover all operators at Aurora Airport.

Given the airport's proximity to Portland city center and the State Capital complex, it is essential that better security be maintained at Aurora Airport. The opportunity for a terrorist attack developing due to lack of security at Aurora Airport is much too great.

I would like to receive email updates.
