Subject: Re: Aurora State Airport Master Plan Website Comments - Robert Altemus

 **Aurora State Airport Master Plan Website Comments**

Name Robert Altemus

Organization Retired, GA pilot flying out of Mulino

Comments or questions? I certainly understand the Hubbard Rd realignment to ensure meeting the RSA requirements. However I'm unsure of the requirement/reasoning to propose a 35' wide Taxilane, and a vehicle service road, to be built parallel to the existing full length Taxiway Alpha, especially considering the significant necessary acquisition and removal of existing facilities.

Admittedly, I've got some catching up to do regarding this latest iteration to the Aurora Master Plan Project, but so far I haven't seen

the history or operational data leading to this proposal.

Thanks for any consideration to my query, respectfully,

Bob Altemus
