You don't often get email from maryschuaviation@gmail.com. [Learn why this is important](#)

This message was sent from outside the organization. Treat attachments, links and requests with caution. Be conscious of the information you share if you respond.

Hello again,

I would like to make an additional clarification regarding the Airport boundary that needs to be considered:

The Aurora Airport boundary (KUAO) is all the property currently in aviation use or development and outlined by Arndt rd, Airport rd, Keil rd, & highway 551.

I hope that is helpful in comparing this to other smaller possibilities that are not inclusive of what is currently necessary for the Aurora Airport.

Thank you for your time and kind consideration in this very important matter.

Sincerely,
Mary Schu

Dear Tony,

Thank you for considering us airport users' and property owners (as Columbia Aviation Association members) input and for the significant improvements in the current plan over the previous.

Please consider highlighting the importance of maintaining the septic systems and their leases, these are owned by airport tenants and located on airport property as we feel these are a critical piece of the airport infrastructure and represent major investments.

We ask that you include the 1.1 acre ODAV property purchase of the ramp space currently adjoining the south end of main UAO ramp (south of the tower) in your "priority purchase" list as this will significantly improve access to CAA as well as Pacific Coast Avionics, the main public ramp, all the mid-field hangars and Aurora Flight trainings ramp. This notable ramp and taxi-lane improvement will increase safety and flow much like the prior plan considered via a parallel taxiway and road but without displacing any hangars or the huge cost.

Finally, please eliminate or reduce to an absolute minimum the amount of airport boundary increase, adding additional real estate to UAO would be extremely expensive and is very unpopular with our neighbors. Please use any and all FAA approved mitigation measures to keep the airport safely in its current boundaries.

Thank you again for listening and your recent improvements to the plan.

Sincerely,
Mary Schu
