SUMMARY OF AWARD

Project Number:	EC2501	Date of Award:	07/22/2024	
Recipient:	Sunset Water Systems			
Project Name:	Manganese Remediation Feasibility S	tudy		

Source of Funding (Grant/Loan/Forgivable Loan)	Award Amount
OBDD – BIL-EC – Forgivable Loan, Taxable	\$61,250
Total	\$61,250

General Description of Loan			
Interest Rate	1.00%		
Maximum Term	10 Years		

Approved Project Description

The Recipient will procure an Oregon Licensed Engineer to prepare a feasibility study to evaluate the feasibility of alternatives to address manganese located in the water system. The feasibility study must include the following elements:

- Analysis of project feasibility (e.g. engineering, regulatory, legal, et cetera).
- Analysis of alternatives for drinking water projects to address the emerging contaminant within the water system and recommended options, which will include but is not limited to, connecting to a nearby water system, developing a new water source and installing treatment.
- Estimate of up-to-date project costs for each alternative including material, labor, contingency budget, and other expenses.
- Design and/or construction timeline.
- Operational feasibility analysis including identification of expected changes in costs for ongoing operation, maintenance, and long-term replacement of the improvements.

The draft feasibility study must be submitted to Business Oregon for review.

Note: The full terms and conditions will be contained in the contract.
